To whom it may concern;

Re: Ottawa Valley Bathtub Liners

Nepean Housing Corporation recently had the pleasure of doing business with Phil Holmes of Ottawa Valley Bathtub Liners correcting a serious default in many new tubs recently installed in one of our communities.

The company did a very professional job and the added touch of installing an additional edge on the top edge of the liner form to ensure no water flow onto the floor was really appreciated. The staff was courteous, efficient and always cleaned the area upon completion of the work.

I would highly recommend the company to anyone wanting to refinish old tubs or to correct an inferior tub situation.

Should anyone wish to view the work performed, I would happy to accommodate.

Yours truly,
